## **SECTION 4 - FIRST AID MEASURES**

Inhalation Skin contact	Not available. Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact Ingestion	Rinse with water. Get medical attention if irritation develops and persists. Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute	Coughing.
and delayed Indication of immediate	Provide general supportive measures and treat symptomatically. Keep victim under
medical attention and special treatment needed	observation. Symptoms may be delayed.
General information	IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

## SECTION 5 - FIRE-FIGHTING MEASURES

Suitable extinguishing media Unsuitable extinguishing	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Do not use water jet as an extinguisher, as this will spread the fire.
media Specific hazards arising from	During fire, gases hazardous to health may be formed.
the chemical	
Special protective equipment and precautions for firefighters	
Fire fighting	Move containers from fire area if you can do so without risk.
equipment/instructions Specific methods	Use standard firefighting procedures and consider the hazards of other involved
General fire hazards	materials. No unusual fire or explosion hazards noted.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/ leak. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.

# SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid prolonged exposure. Should be handled in closed systems, if possible. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good
Conditions for safe storage,	industrial hygiene practices. Store locked up. Store in original tightly closed container. Store away from
including any incompatibilities	incompatible materials (see Section 10 of the SDS).

5	SECTION 13 - DISPOSAL CONSIDERATIONS
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/ international regulations.
Local disposal regulations Hazardous waste code	Dispose in accordance with all applicable regulations. The waste code should be assigned in discussion between the user, the producer
Waste from residues / unused products	and the waste disposal company. Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Product name: Rhino Top Textured Coating

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
